You know that people use LinkedIn to get clients...

And maybe you've tried experimenting with the platform too. Which is great!

But if you're not sold on it as one of the MOST EFFECTIVE lead generation tools, then here's what you should know...

A recent IDC Social Buying study has shown that:

- ✓ 75% of B2B buyers use Social Media to make buying decisions.
- ✓ 50% of B2B buyers use LinkedIn as a source for making purchase decisions.
- ✓ 76% of B2B buyers prefer to work with recommendations from their professional network.

LinkedIn hits all three and has 740M members! Up almost 200M From 2019!

This network of professionals is at the forefront of connecting buyers and sellers. And I want to show you how to take advantage of it to get more clients...

And it all comes down to...

People Don't Want Your CV/Resume — They Want Your STORY!

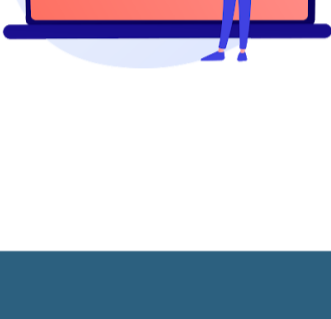

This is the NUMBER ONE thing that you need to understand about potential clients on LinkedIn who are seeing your profile — they are HUMAN!

And human beings are always looking for stories. That is how we are wired!

They don't want to see a list of the things you've done in your career; they want to read the STORY of how you have helped people JUST LIKE THEM solve problems similar to those they are facing!

So what must your LinkedIn profile do?

Tell REAL stories about how you have solved REAL problems!

This is how you will get your prospects to relate to you and see that you are THE person to solve their problem — because they can see that you have done it before!

And so, you can see why most LinkedIn profiles are a BIG FAIL!

Here Are The Most Common Mistakes On Most LinkedIn Profiles

Go through the list and see if your profile has these mistakes...

<p>#1: Most Profiles Are Bland & Don't Sell</p> <p>To sell is to simply engage the person reading your profile at a HUMAN level. This involves establishing a connection, and most profiles fail at this.</p>	<p>#2: Profiles Aren't Designed to Communicate Their USP</p> <p>Your Unique Selling Proposition is what makes you stand out from the hundreds of thousands of profiles that are there on LinkedIn.</p>	<p>#3: Most People Don't Realise the Value of LinkedIn</p> <p>Most profiles don't leverage the value of LinkedIn and hope that their prospects visit their website for more information — but they don't!</p>
